

Organisational structures to support a whole-of-provider approach to learner wellbeing and safety

	Implementation	Measures of success
Outcome 1:		
A learner wellbeing and safety system	Implemented	There are clear vision statements and objectives on the website - that are inclusive of each learners knowledge, skill, culture and capability. Policy and processes available support learner wellbeing.
Outcome 2:		
Learner voice	Implemented	Student feedback on each course and past learner feedback reflect positive learner outcomes and reflect positively on the value of the course in practice.
Outcome 3:		
Safe, inclusive, supportive, and accessible physical and digital learning environments	Implemented	Learning environments are selected to offer maximum support to students. Student feedback informs the delivery of the course, and all efforts are made to provide learning material in a manner acceptable to the students.
Outcome 4:		
Learners are safe and well	Implemented	Students are provided with the necessary information to assist with their study. Every effort is made to walk alongside and support the learner to complete the course. Tutors are experienced in the sector and are onsite for the duration of the course which supports one on one time with the student should this be required.
